

Pasture Pro

Standard sizes from 8 to 35 rows at 7" spacings. Custom sizes available.

Ideal for lucerne, canola, turnips, small pasture seeds, and other small seed crops

Sowing rates from 0.2kg to 90kg per hectare (canola/lucerne)

Better control of seed depth; stops small seeds being buried too deep

Roller presses large clod or stones down for better harvesting and mowing conditions with less wear and tear on equipment

22.5" semi-trailer tyres used for more economical rolling (up to 40km/h transport speed)

Sealed long-life twin roller bearings
Triples row harrow tines pivot freely in reverse, clears trash easily

- Roller firmly compacts soil resulting in better moisture retention and better germination
- Towing only requires low horse power
- Handles rocky/stoney & trash

Specifications
